

# UW-Madison Chapter of the American Association of Pharmaceutical Scientists (AAPS)

Founded in 1986, the American Association of Pharmaceutical Scientists (AAPS) is a professional scientific organization with members employed in academia, industry, government, and other pharmaceutical science related research institutes. The purpose of AAPS is to serve its membership, the pharmaceutical sciences, the biomedical and biotechnological community, the health professions, and the interest of public health. This is accomplished by providing open forums for the exchange and dissemination of scientific knowledge; by fostering the education and career growth of members and recognizing individual achievement; by influencing the formation of public policy relevant to health and related issues of public concern; and, by promoting the pharmaceutical sciences as they relate to health issues of public concern. AAPS has an annual meeting, conferences, workshops, symposia and online publications. Recognizing that modern science is conducted in an integrated fashion comprising many disciplines, AAPS seeks to foster the integration of those sciences related to discovery, design, analysis, development, production, quality control, safety, clinical evaluation, regulation, distribution and utilization of drugs and drug delivery systems. Thus, AAPS should serve as the primary focus and forum for interest in these disciplines.

## What our chapter does!

- Social Events:**
- Gingerbread-Making Contest
  - Group Volunteering
  - Fundraising

- Outreach Events:**
- Wisconsin Science Festival
  - School of Pharmacy Wellness Fair
  - After-School Science Activities

- Professional Development Events:**
- CV Workshops
  - Conference Poster Feedback
  - Industry Tours
