For 2015-2016, the Research Committee is charged to:

1. Monitor and oversee planning regarding the overall research enterprise in the School, including a review of the strategic plans developed by the Animal Care and Instrumentation Committees.

2. Develop a set of recommendations for the Dean on the best ways to support research of current faculty in all divisions (in anticipation of future resources not available in 2015-16).

3. Construct meeting agendas and maintain detailed minutes of Committee discussions, actions, and recommendations. In addition, provide a short, written report to the Dean by June 30, 2016 summarizing the year's activities of the Committee and how those activities fulfilled the charges and support the School's mission and strategic priorities. These documents will be posted, as appropriate, on the SOP Committee webpage (http://pharmacy.wisc.edu/about-school/office-dean/committees) to keep the School informed.

4. Bring items and issues forward for faculty discussion/decision making throughout the year, as appropriate. If requested by the Dean, provide a short, verbal report of the past year's Committee activities to the faculty at a Fall 2016 Faculty/Staff meeting.
