## A Message from the Dean

Graduation is a wonderful celebration of completion and success, but truly represents more of a beginning than an end. Our students have persevered during the most challenging pandemic in modern history to graduate and take their place in their chosen field.

Today's events honor an outstanding graduating class from our unique Pharmacology and Toxicology program. These young people are poised to enter the job market in biomedical, pharmaceutical, and biotechnology areas or are prepared to advance their education in a variety of directions. We look forward to the Class of 2023 continuing our traditions of excellence and innovation and to their new relationship with the School as alumni, professional colleagues, and lifelong friends.

Congratulations and continued success!

STEVEN M. SWANSON, PHD, DEAN AND PROFESSOR
